Palmetto, Florida

PREFACE

Palmetto is a prosperous city of 2,700 inhabitants, located on the north bank of the beautiful Manatee River, which at this point is over a mile in width. Its people are progressive and believe that the best is none too good for their homes. Hence they have provided liberally all the conveniences of the modern city. Many miles of brick-paved streets and concrete sidewalks, electric lights for streets and houses, municipal water works and a complete sewer system are some of the features that add to the comforts of urban life here.

A wide-awake Chamber of Commerce, a live Woman's Club, and a progressive newspaper are putting Palmetto more and more on the map.

Several churches, two modern high school buildings and a well-equipped public library contribute to the spiritual and intellectual welfare of the community.

Palmetto's prosperity rests mainly on the agricultural wealth that abounds in the fertile fields which stretch back for miles from the banks of the Manatee. Two of the largest grape-fruit and orange groves in the world lie just outside the city, and numerous small groves of from five to twenty acres are found in all directions. Thousands of acres are planted annually in tomatoes, lettuce, peppers, celery and other vegetables that tempt the Northern appetite, while the wintry blasts are blowing. The products from these fertile fields make Palmetto the greatest shipping point in South Florida. Hundreds of carloads of fruit and vegetables leave this point annually, and the returns furnish the sinews that establish the permanence of Palmetto's prosperity. In 1922-23 over 5,000 cars of vegetables were shipped.

Hundreds of acres of yet uncleared lands near here still await the sturdy settler who wishes to locate his home close to nature. Palmetto welcomes you!

PREFACE

"Beautiful Manatee" and "The Land of Manatee" are terms specifically applicable to this little city and its immediate surroundings. Here will be found all that is expressed or implied in these familiar designations as pertaining to delightful climate, fertile vegetable lands, abundant fruit production, healthful and attractive homes, enjoyable boating and fishing opportunities, and convenient transportation facilities.

In the important matters of schools, churches, stores, hotels, local newspaper, bank and professional services, Manatee is prepared to meet the needs of all its residents, permanent or temporary. The number of its permanent residents and of winter visitors is steadily increasing from year to year. A large proportion of attractive homes are owned and occupied by families who have recently come from the North. At the same time many of its most estimable and progressive citizens are of old Florida families dating back to the very earliest settlements in the state. The available rooms for winter visitors, while increasing in number from year to year, has never, of late, been sufficient to meet the growing demand. The city offers to homeseeker, to tourist, to agriculturist, to investor, attractions that are well worth looking into. Northern capital can here be profitably invested in grove or trucking lands, or in the erection of moderate-priced homes or of rooming houses for the growing population.

The main streets of the city are brick-paved, and they connect with many miles of paved or hard-surfaced streets and roads leading to and through the other cities of this famous Manatee section and to Tampa and thence to all parts of the state and the Northern and Western States. Numerous families and neighborhood parties come to this section every season by automobile from their distant homes.

No man remains idle in Manatee, unless through choice, as the different industries absorb all labor as it becomes available.

For specific information, write to

SECRETARY BOARD OF TRADE,

Manatee, Florida.
